CENTRAL INTELLIGENCE AGENCY  
WASHINGTON, D.C. 20505

MEMORANDUM FOR: Mrs. Barbara W. Morlet  
Office of External Research  
Room 4104, SA-15  
Department of State

SUBJECT : CIA Foreign Affairs External Research Data

REFERENCE : Letter to DD/PR from Executive Secretary,  
USC/FAR, dated June 24, 1975

Attached are current "Foreign Affairs Research Summary" sheets for each of the four projects which fall within the social-behavioral sciences and which have a foreign affairs focus. All four are classified. Please understand that the data on these four projects must appear in the classified volume in your inventory series (Volume VI). The reason for this restriction is that the relationship between CIA and the contractor is privileged and often sensitive even though the projects done may not be of a classified nature.

MEMORANDUM FOR:

The changes proposed are in the interests of simplification. The Agency generates very little external research of the sort defined in this regulation, and a single focal point for clearing projects is logical.

Per our telecon. Regulations Control Branch has completed a Review of the Agency's Regulations and made a list of all paragraphs dated 1970 or earlier. We have been asked to review for updating those that fall under the responsibility of the DDI. The attached appears to be of concern to OPR. Will you please let me know by 11 Nov. if you plan to revise it and, if so, give an approximate date for submitting the new draft to Regulations Control Branch.

FYI; I am told that if there are only name changes the revision will not have to go through the usual coordination cycle; if the changes are substantive they will.

From past experiences with DDO re revision of  
regs, [ ] says it's best to revise it at your  
discretion, submit it to Regs Control, and then let  
it be coordinated through regular Agency channels  
(w/deadline from Regs Control). All [ ] needs  
now is an estimate when your revision will be  
ready to send to Regs Control.
